Free Sustaining Our Towns Workshop Series

**Learn how to reduce your power bills and make
your home more sustainable.**

When-: 2pm start - 4pm, Saturday 16th July.

Where: 24 Auckland Street, Bega

RSVP Essential, maximum of 12 participants. Workshop **starts** at 2pm.

Please call Ian Pegler 6494 7237 to book a place.

In this workshop you will be guided through a typical Bega weather-board home that has been retrofitted to be more energy efficient. The owner, Ian Pegler is a certified home and garden sustainability advisor with the SOT program with 3 years experience in the Bega Valley. He will explain the variety of actions he took to make this home energy efficient, and how he reduced electricity consumption by 65%.

Topics covered:

- Insulation options
- Rain water harvesting
- Window coverings and dressings
- Solar technology (hot water, PV)
- Learn how the entire system - house and garden - work together

Afternoon tea will be provided
